

WORKSHOP- SAME VIOLENCE, NEW TOOLS

How to work with violent men on cyber violence

Letizia Baroncelli, Alessandra Pauncz

European Network for the Work with Perpetrators of Domestic
Violence (WWP EN)

Funded by the
European Union

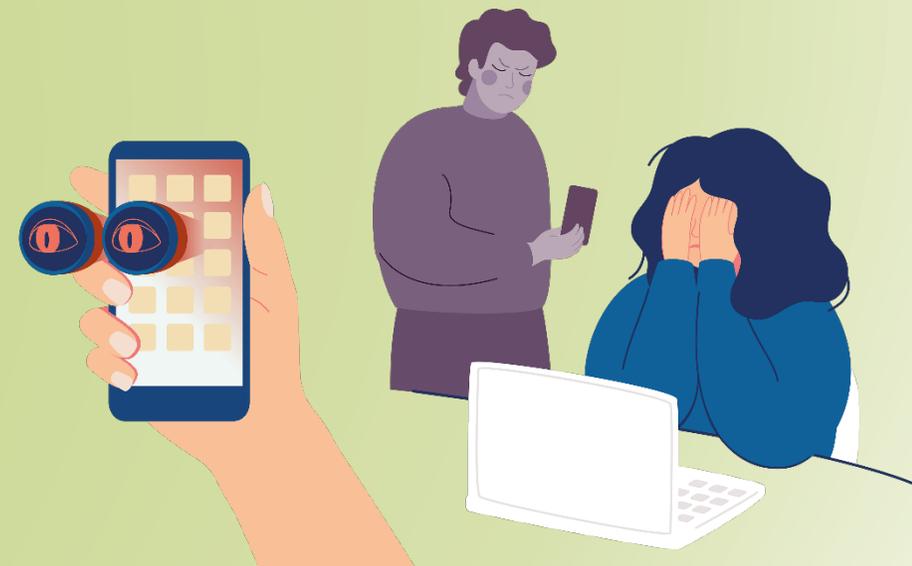

WWP || EUROPEAN NETWORK

**OAK**
FOUNDATION

2020 #ResponsibleTogether Campaign

- 25 November – 10 December
- Cyber violence in intimate relationships, stalkerware & cyber bullying and violence among teenagers
- 14 organisations across 10 European countries
- Follow #ResponsibleTogether on social media to see all content or keep an eye on our profiles
- More information: <https://www.work-with-perpetrators.eu/campaign-2020>

Upcoming Events

- **2 December - 11:00-12:00 CET**

Webinar: Domestic Violence and the “Internet of Things” – Exploring technology-facilitated abuse

- **4 December - 16:00-17:00 CET**

Webinar: Perpetrator work with(in) migrant populations – A perspective on anti-racist and culturally sensitive approaches

- **8 December, 10:00-12:00 CET**

Workshop: Deconstructing sex expectations – Working on sexual violence and abuse within perpetrator programmes

- **10 December, 14:00-15:30 CET**

Workshop: Intercultural sensitivities in the work with men* around gender equality

More information on our website: <https://www.work-with-perpetrators.eu/events/webinars>

Definition

- *Online access to and distribution of offensive, violent, or dangerous materials with the objective of causing emotional, psychological, or physical damage (Attril et al.2015)*
- **Presentation of manual about cyberviolence**

Let's get involved!

1. We will divide you into breakout rooms
2. Each group will be assigned one situation/sentence (in chat)
3. Each group will have to place their situation along a **continuum** from 0 to 10. **0 represents non-violent behaviour and 10 represents serious violent behaviour.**
4. In the big group we discuss the answers given by each small group.
5. Reflect about the types of cyber violence

Let's get involved!(II)

Group 1:

The man saves his partner's WhatsApp Web login on his computer. Every day he checks her conversations without her knowledge.

Let's get involved!

Group 2:

He threatens his ex-partner that if she doesn't sleep with him, he will post nude images online that she sent him in the past.

Let's get involved!(III)

Group 3:

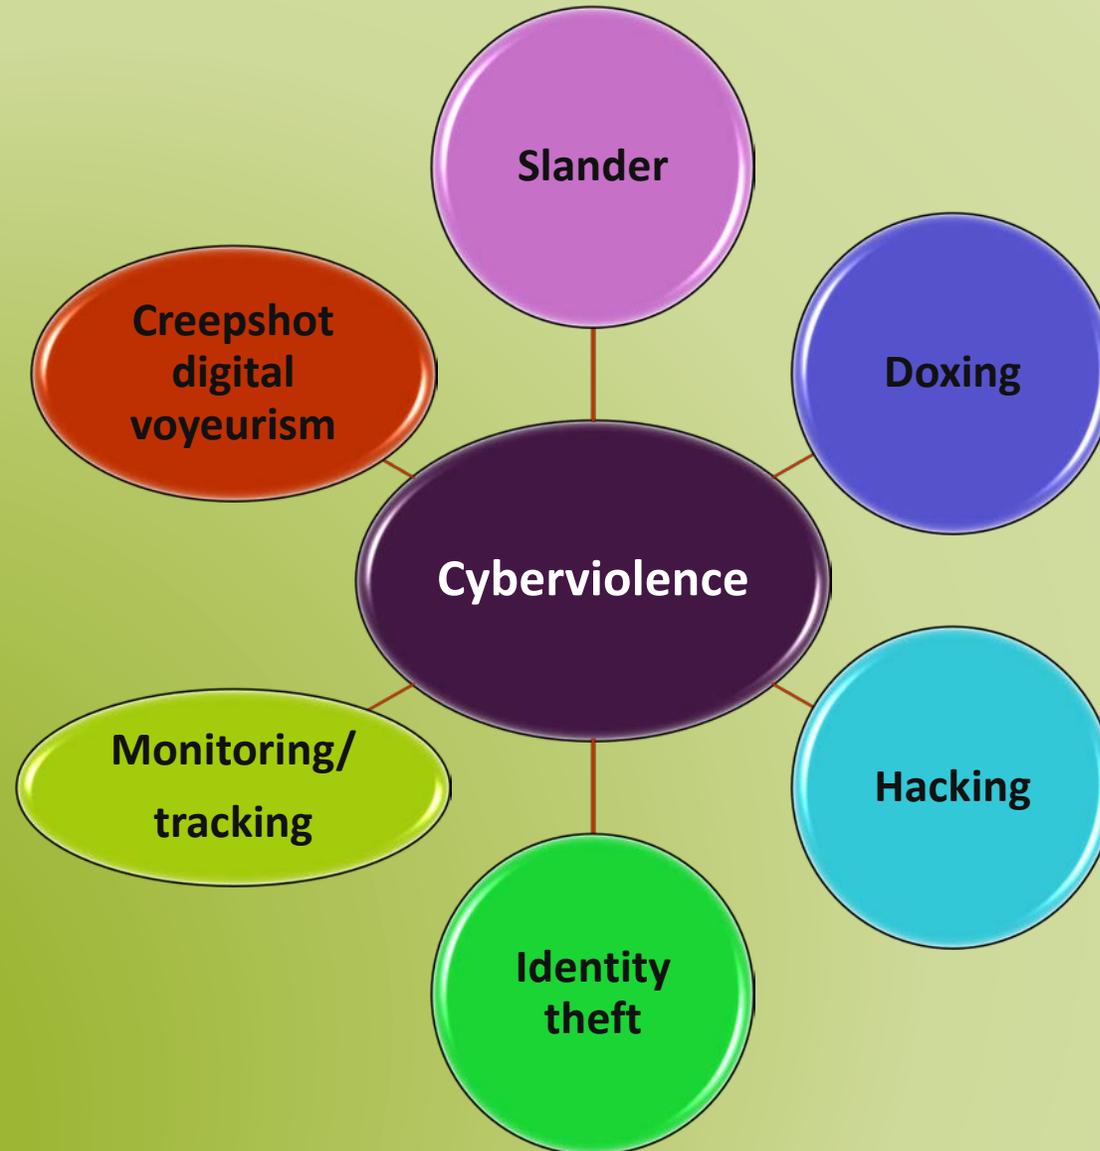

He creates a fake profile on Instagram to write to his ex, posing as another person, with the aim of getting her back.

Let's get involved!(III)

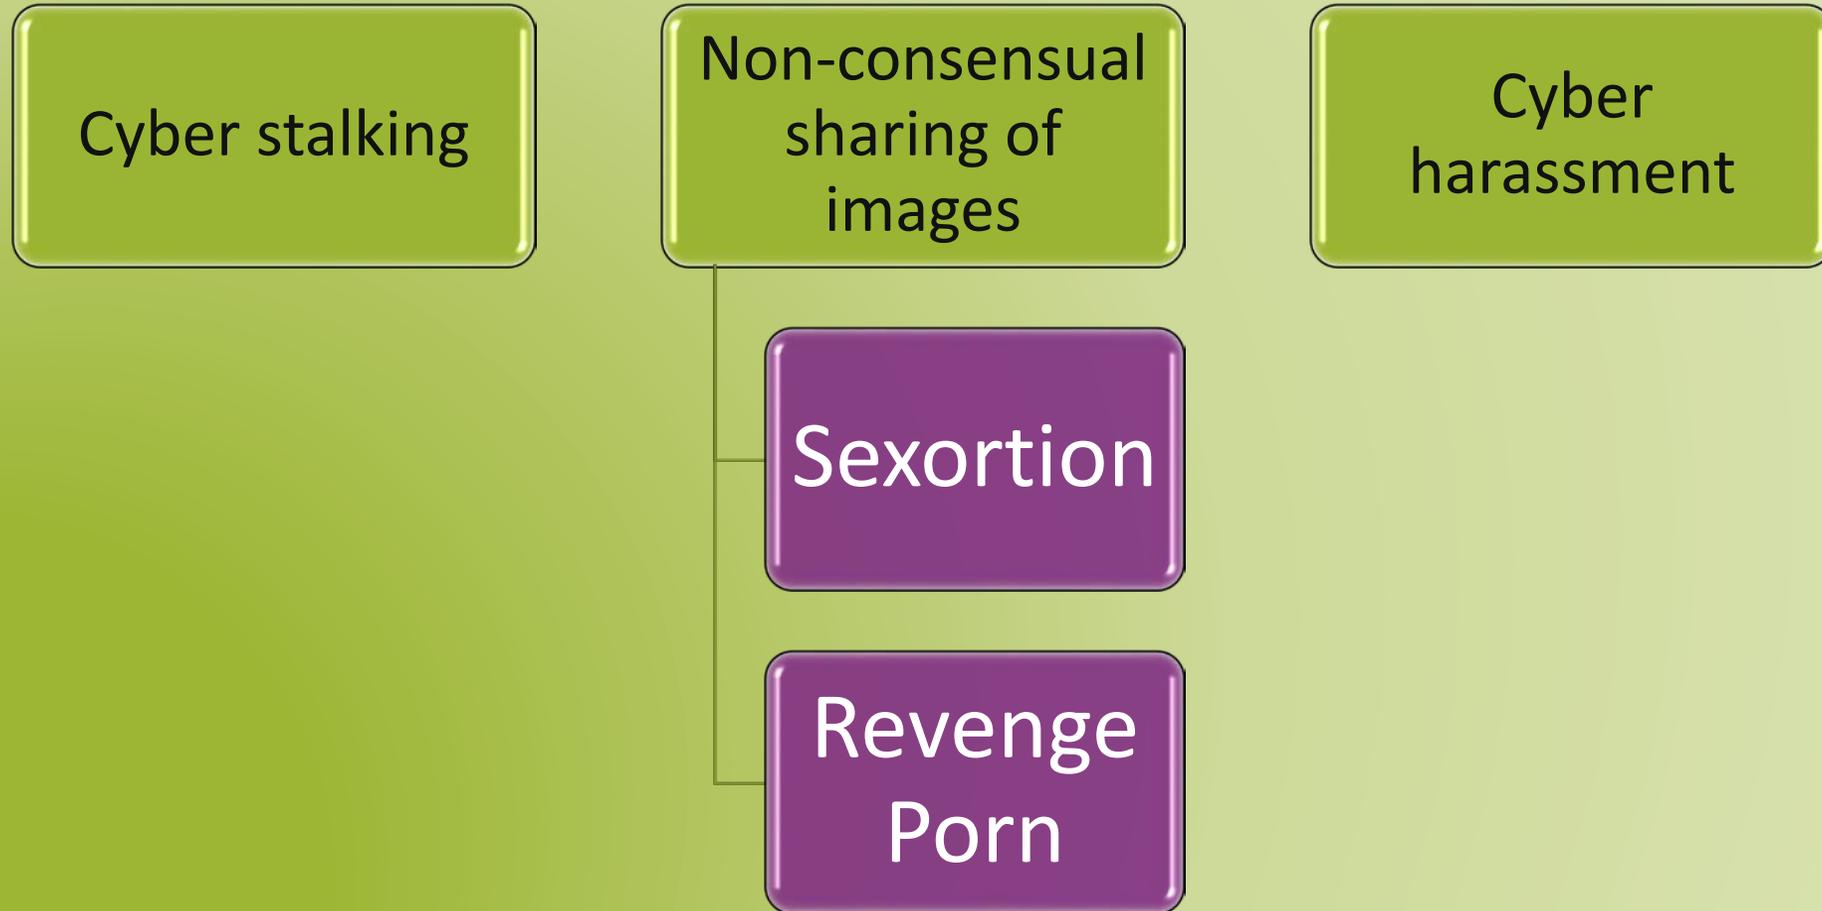

Group 4:

He installs the bank app with his partner's data on his phone to check her expenses and earnings.

Methods

Categories

Stalkerware (I)

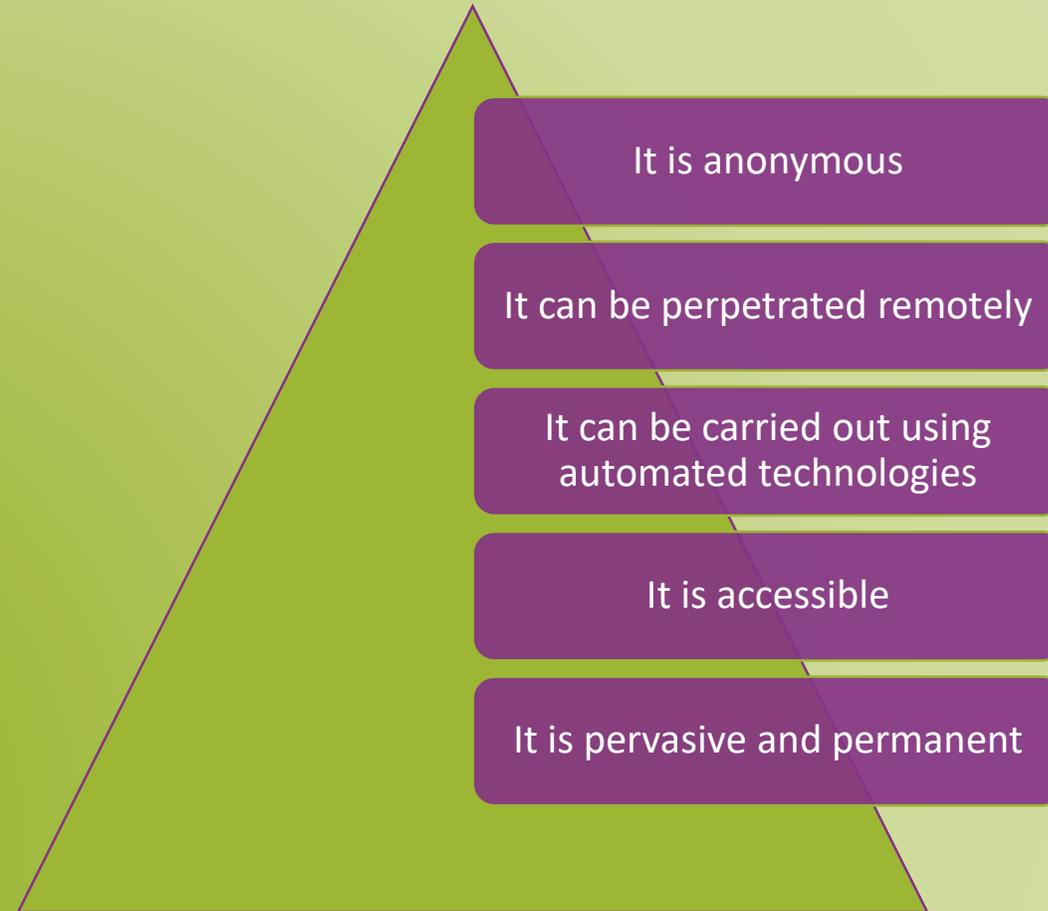

- See pictures
- Read texts
- Read WhatsApp, Facebook Messenger conversations, etc.
- Obtain recordings of calls
- Access camera and microphone
- See locations of where a person is, etc.

Stalkerware (II)

5 big question:

- How does stalkerware get on someone's phone?
- How can somebody find out whether they have stalkerware on their phone?
- Is it safe for somebody to remove stalkerware?
- How can stalkerware be removed?
- How can somebody protect themselves from stalkerware?

What makes it more dangerous than other kinds of violence?

Detecting Cyber Violence

Possible questions:

- Do you think it is important in a relationship to share everything and that there are no secrets?
- Do you get angry if your partner does not want you to see their phone?
- Do you ever check your partner's phone without her knowing?
- Do you get angry when your partner doesn't answer your texts or calls?
- Have you ever created a fake social media profile to control your partner?
- Do you share intimate pictures of your partner on-line or with friends?
- Do you check your partner's pictures, messages, location or calls with an app?
- Have you ever shared or published intimate pictures of your (ex-)partner to get your revenge after breaking up?
